# PORTABLE CONTACTLESS DONATION BOXES

## PAYTER

The PayaCharity Payter is an exciting contactless donation solution for all types of charity across the UK. It comes in a portable model that can also be used as a standalone device, making it ideal for modern street fundraising as well as autonomous fundraising.

- Lightweight and easy to manage for your Volunteers and Donors. No pin required, just tap and go for a fast and safe donation.
- The Payter can still be used offline without a phone signal. It will also store transactions if the mobile signal is weak.
- The portable Payter device can be left unattended for in-store donations, creating a dedicated spot for 24/7 donations.
- No cash means the Payter can be used in public areas without the risk of theft.
- The Payter can be configured to accept recurring donation requests of whatever amounts you choose, giving you more control over your donations.
- The Payter doesn't need pairing with other devices to work, no logins required.

- The Payter has both LAN and SIM connection to ensure quick processing of transactions no matter where you are.
- The Payter has up to 8 hours of battery life and can be used all day. You can also charge the device overnight and connect to a power bank when needed.

Fitted with a roaming SIM card, you can connect to all major mobile networks. Should you be fundraising at a location with no signal, then the box will accept offline donations – which means that the transaction is stored within the device until signal is regained.

# COMPREHENSIVE PAYMENT SOLUTIONS

## WISEPAD 2

The Wisepad 2 accepts Contactless, Chip and Pin and Magstripe payments, maximising your collection potential and allowing for larger donations. The Wisepad 2 doesn't need to connect to any App to function, making it easy to use and simple to roll out to your Fundraising Teams and Volunteers. Both models can connect to Wifi and mobile hotspots and the 3G model comes with its own data SIM.

### The Wisepad 2 Can Be Used In Two Ways

#### Recurring Donation Mode

The device can be set to accept a single fixed contactless donation between £1 and £30. This recurring fixed donation amount, Eg. £3, would be requested and collected every time with no keying required. This makes it ideal for unmanned donation displays. Your chosen amount is fixed until you request a configuration change.

#### Standard Terminal Mode

The device can be used to collect variable amounts from £0.01 to £10,000. This option requires you enter the transaction amount into the device each time before the card is presented.

#### ● Easy To Use

The PayaCharity Team will make sure your device is set up and ready to use straight out of the box.

#### ● PayaCharity Portal

Track your donations real-time and download the reports you need for your fundraising and campaigns.

#### ● Full Support

PayaCharity Helpdesk are on hand for any assistance you may need.
